PARI TENGURIYA

+91 63961 94124 | paritenguriya0506@gmail.com | Jaipur, RJ | linkedin.com/in/pari-tenguriya |github.com/PariTenguriya

CAREER OBJECTIVE

Aspiring SOC Analyst with hands-on experience in Wazuh SIEM deployment, MISP threat-intelligence integration, and MITRE ATT&CK-mapped detection engineering, validated through controlled attack simulation. Additional exposure to secure infrastructure (Windows Server, Active Directory, VLANs, SSL/TLS) and perimeter security via Sophos Firewall.

EDUCATION

B.Tech with specialization Cyber Security, Arya College of Engineering, Jaipur — **8.7 CGPA,** 2023-27
Senior Secondary, (CBSE), Jaipur — **92%**, 2022
Higher Secondary, (CBSE), Jaipur — **88.8%,**2020

PROFESSIONAL TRAININGS

- **Windows Server Administration (MCSE Curriculum)** — 2023 –2024
- **Cisco Certified Network Associate (CCNA)** — 2024 – 2025
- **Cisco Certified Network Professional (CCNP)** — (In progress) 2026

INTERNSHIP

Rise Tech Software Pvt. Ltd., Jaipur — Jun-Jul 2026
Sophos Firewall Configuration & Network Security | 45 Day

- Configured SFOS firewall policies and rules across enterprise environments
- Cleared ET80: Sophos Firewall Engineer v22.0 certification during training period

SKILLS

Technical Skills –

- **Offensive Security & VAPT:** Reconnaissance, ARP Poisoning, MITM, Brute Force, SQL Injection,VAPT
- **Networking:** ADDS, DNS, RRAS, IIS, VPN, CA Server, Routing Protocols, VLAN, STP, Layer-2 Security
- **Platforms & Tools:** Windows Server, Ubuntu Server,Kali Linux, VMware Workstation, AWS, Cisco Packet Tracer,GNS3
- **Perimeter Security:** Sophos Firewall (SFOS) Configuration, Firewall Rules, IPS/IDS, VPN
- **Security Testing Tools:** Wireshark, Nikto, Nmap, Burp Suite, Bettercap, Hydra, Nessus
- **Integration & Scripting:** REST API Integration (Wazuh–MISP), Python scripting for SIEM–threat intel automation
- **SOC / Blue Team:** Wazuh SIEM, MISP Threat Intelligence, MITRE ATT&CK Framework, Sigma Detection Rules, Incident Response Lifecycle, Cyber Kill Chain, Log Analysis, iptables

Soft Skills - Analytical Problem-Solving, Clear & Direct Communication, Leadership Skills

PROJECTS

Certificate Authority (CA) & SSL Implementation — May 2025

Situation: Hands- On practical Lab environment required secure HTTPS communication with trusted certificate management to eliminate browser security warnings and establish encrypted client-server channels.

Action:

- Deployed PKI via AD CS across a 5-node domain LAN (AD DS, AD CS, IIS, client machines) with automated cert issuance and CRL distribution, integrated SSL/TLS with IIS for HTTPS enforcement, and resolved trust-chain issues via Group Policy.

Result: Eliminated browser security warnings, established encrypted communication channels, and enabled centralized certificate lifecycle management for 3+ client endpoints.

Threat Intelligence Driven SOC — Security Operations Lab Jul 2026

Situation: Endpoint monitoring needed centralized detection with threat-intel context to reduce alert fatigue and validate detections against real attacks.

Action:

- Simulated controlled attacks (Kali Linux) against a Windows endpoint, correlated Sysmon telemetry into MITRE ATT&CK mapped alerts via Wazuh, and enriched detections with live threat intelligence via Wazuh-MISP REST API integration.
- Conducted Windows pre-authentication privilege escalation (T1546.008 — Utilman.exe bypass via WinRE) and validated detection via Wazuh FIM + Event ID 4688 correlation

Result: Achieved real-time, severity-tiered detection (800+ events/24h) with confirmed technique-level coverage across credential access, persistence, and authentication-anomaly categories.

CERTIFICATIONS

- **ISC2 (CC) Certified in Cyber Security** Aug 2026
- **Fortinet Certified Fundamentals in Cybersecurity (FCF)** Jul 2026
- **Sophos Firewall Engineer v22.0 (ET80), Sophos Academy** Jul 2026
- **Cloud Computing (Amazon Web Services),** Launched Global Jun 2025

EXTRA-CURRICULARS

- Led a team in a hackathon to develop “Sun Solution – Integrated Dashboard”, improving data monitoring and management efficiency.
- Winner - Hack-O-Shop 2.0 Ethical Hacking Workshop, organized by IEEE Student Branch, VGU
